Education

06/2023 – present
Hosur, India

Diploma computer Engeerning and IT Infrastructure

Government school

Completed a comprehensive 3-year diploma focused on core computer science subjects including programming, web development. Developed skills in full-stack development using React.js, Node.js, PHP, Python, and database technologies like MySQL and MongoDB.

Profile

Passionate and self-driven full stack developer with strong foundational knowledge in frontend and backend technologies including React.js, Node.js, Express.js, MongoDB, and React Native. Currently pursuing a Diploma in Computer Engineering & IT Infrastructure at NTTF Bengaluru, with hands-on experience building real-world projects such as portfolio websites, e-commerce platforms, and IoT-based systems. Skilled in problem-solving, UI/UX design, and API integration. Keen to contribute to innovative development teams and continuously grow as a modern software developer.

Skills

Frontend Developer, Database, Problem Solving, UI/UX, React, React Native ● ● ● ● ●

Languages

- JavaScript, Python, SQL, React, React Native, MangoDB

Hackathon Experience

Blockchain-Based Property Registry – NTTF Blockchain Hackathon

17 March 2025 **Role:** Full Stack Developer (React + Smart Contracts) **Tech Stack:** React.js, Solidity, Hardhat, MetaMask, Ethers.js, IPFS **Team Size:** 3

Description: Participated in a 24-hour internal blockchain hackathon focused on solving real estate transparency issues. Built a decentralized application (dApp) that allows users to register and verify land ownership securely using Ethereum smart contracts.

- Wrote and deployed smart contracts using Solidity on a local Ethereum testnet (Hardhat)
- Integrated MetaMask for wallet-based user authentication
- Used IPFS to store property documents securely and immutably
- Created a React.js frontend to interact with the blockchain via Ethers.js
- **Add a GitHub Link**

If I pushed your project to GitHub, I can add: **GitHub:** github.com/jeswin/blockchain-property-registry

Contact & Availability

I am currently open to internship or full-time opportunities in Web Development, Full Stack, or React Native roles. Available for remote or on-site work.
